How to Use This Journal

This journal gives you one page for each of 90 days. Each page has a quick check-in you can finish in a minute, a single prompt to write about, and a line to finish the day with something good.

The daily check-in

Circle a number from 1 (low) to 5 (high) for sleep quality, energy, and mood. Add hours slept, glasses of water, and any hot flushes or other symptoms you notice. Tick any movement. There are no right answers. The aim is simply to see your own patterns.

The prompts

The 90 days are divided into 13 weeks, each with a theme, from sleep and energy to relationships and purpose. Write as much or as little as you like. Skip a day if you need to and carry on the next. A gap is not a failure.

The weekly review

At the end of each week, look back at your check-ins. What do you notice? Choose one small change to try next week.

Sharing with your care team

Your check-ins can help you describe changes clearly at an appointment. Bring the journal, or the weekly review pages.
